AMENDMENT AND RESPONSE
TO OFFICE ACTION UNDER 37 C.F.R. SECT. 1.111

Sir:

The present communication is Applicant's response to Examiner Hogan's Office Action issued in the above-identified utility patent application. In said Office Action, dated as mailed April 20, 2006 Examiner Hogan rejected Claims 1, 3, 6, 10, 11, and 15 through 17. Claims 2, 4, 5, 7, 8, 9, 12, 13, 14 and 18 currently stand withdrawn as not reading on the elected species.

Presently, no claim is allowed. However, Applicant notes that Examiner's Office Action was not made FINAL. Thus, Applicant earnestly requests further examination as afforded by the *Rules of Practice [37 CFR]*, and consideration of the rejected claims as currently amended. Applicant's overall response and accompanying remarks are believed to support an affirmative decision on patentability.

REVISED AMENDMENT PRACTICE

The response that follows herebelow is in strict formal compliance with revised 37 C.F.R. 1.121. Amendments are herein requested with respect to the claims, and all pending claims are listed as required. Each requested claim change is believed to be completely within the boundaries of the original application disclosure including specification text and drawings, and in no way introduces information that would constitute New Matter.
